Goyal Manufacturing
Company

Precision Investment Casting venture
by Goyal Group Of Companies

About Us: -

Hailing from Jalandhar, Punjab. "Goyal Manufacturing Company" is set up Under the aegis of "Goyal Group of Companies" which is a renowned brand known for running foundries and Industrial Chemical business successfully pan India. The Company boasts a production capacity of 100 metric tons, reduced lead times and on-time delivery. Goyal Manufacturing Company produces castings in dozens of different alloys for broad spectrum of global markets and customers.

Beyond the foundry, Goyal Manufacturing Company is a leader in applying the latest technology and controls to the shop floor throughout the manufacturing process of investment casting. The use of computer-aided design and manufacturing facilities a close working relationship with customers to design parts and components for maximum manufacturing efficiency.

Goyal Manufacturing Company has been providing customers with cost effective solutions to their casting needs for plenty time. The company is modern diversified with plant and manufacturing facilities occupying more than 25,000 square feet.

We've always taken pride in our company as more than just a place to work. It's a place where we're both personally and professionally committed to the satisfaction of each and every customer. In our relationships with customers, we try to keep in mind that you're not just coming to us to buy castings, but to solve a particular problem.

OUR STRENGTH: -

- Well qualified, skilled workforce.
- Engineering support for implementing design alterations.
- State of art in house metal testing for perfect chemical compositions.
- More than 7 years of experience and knowledge of running foundries.
- Vast knowledge of chemicals ensuring the best quality casting every time.

Our Mission: -

Continue to be India's leading Investment Castings manufacturer through innovative and cutting-edge technology and method.

Our Vision: -

We shall strive to be leaders in this business by offering products of a world class quality, and through constant technological innovation. We understand the needs of our customers and shall stay focused on them by offering them products, services and solutions of highest quality.

Industries Served: -

The company serves a wide range of industries such as: -

- Automotive
- Defence
- Industrial Pumps & Valves
- Agriculture
- Power Plant
- Earth Moving Machinery
- Engineering & Automation
- Medical Implants
- Structural hardware's
- Marine Applications
- Food
- Oil & Gas
- Plumbing Component
- Indian Railways

- Quality: -

Our progressive management and cutting-edge production technology contribute to our ability to provide our customers with exceptional value in highly competitive industry.

We regularly work directly with customers, helping to design, innovative and cost-effective solutions to the many challenges facing today's market. In this way, we act as a partner as well as supplier to our customers, and thereby improve our own competitive position by helping improve theirs.

Experienced staff, technical expertise, a dynamic approach to customer partnerships, and on-going commitment to product innovation are just some of the reasons for our existence in the most competitive environment.

- Physical Testing: -

Fully Computerized Testing machine, Spectrometer testing ensuring perfect chemical composition of every casting. Quality assurance engineers physically test each casted batch to ensure highest possible quality of castings to-be delivered.

- Product Capability: -

- Produce castings in dozens of different alloys for broad spectrum of global markets and customers.
- Weight and size of castings: -
 - Weight few grams to 48kgs for single piece in Investment Casting.
 - Size as per customer requirement

Production Facility: -

- Tool Room/Machine Room
- State of Art Equipment/ Machinery for wax Injection, Shell Production in a Temperature and Humidity controlled atmosphere
- Dewaxing
- Induction- Melting furnace of 150Kgs by “ *Inductotherm*”
- Shot Blasting, Air Plasma Cutting Machine
- Heat Treatment Furnace
- Additional value-added services as per customer requirement.

Research & Development: -

Our Research & Development wing constantly backs us with documenting the process & controls with proper system incorporated in the shop floor to manufacture, monitor and defining quality standards.
